The Eraser allows you to remove pixels from an image. Use the brush to paint over your image and then erase sections. The Magic Wand allows you to select rectangular groups of pixels. Select one or more pixels and the Magic Wand will tell you where the pixels are. Click and drag to select the pixels. This is a very useful tool when the selection is not completely rectangular, such as when an image is sliced into pieces. Press the Shift key while using the Magic Wand to make it vertical instead of horizontal. The Pen Tool allows you to draw using a pen that is capable of drawing a pixel. The Spot Healing Brush allows you to select an area and it will fill it with the closest color on the image. The Dodge and Burn tools allow you to select a color, such as white or black, and make the pixels in that color brighter or darker. The Curves tool allows you to make adjustments to brightness, contrast and color. Click-drag to adjust. The Curves tool may also be called a Levels tool. The Gradient tool allows you to make adjustments to brightness or color. You can choose a palette of colors to apply. Click-drag to adjust. The Spot Healing Brush and the Healing Brush allow you to fill holes in your images. The Spot Healing Brush selects a color and uses it to fill the hole. The Healing Brush selects another color and uses that to fill the hole. The Magic Wand may select the two closest colors on the image or it may select an area of one color. The Lasso Tool allows you to select a large area of pixels by clicking-dragging. You can also select a small area of pixels, such as a small ellipse. You can perform various operations on the pixels selected. The Spot Healing Brush and the Healing Brush allow you to add pixels to or remove pixels from an image. The Spot Healing Brush selects a color and uses it to make the pixels in that color brighter. The Healing Brush selects another color and uses that to make the pixels in that color darker. The Pen Tool can be used to make drawings and to copy and paste pixels. To use the Pen tool you first make an outline of the pixels you want to select. Click once to open the Pen tool. Click again to create a new pixel. When you are finished, the pixels should be outlined. The Eraser allows you to delete pixels. First click on the image to open the Eraser
