Q: How to create add/remove events on expander I have a ListView which list a bunch of check boxes. Each check box represents a folder in the path to the computer. Now I want to display and hide the ListView's expander element when user clicks on a folder check box. I know I can either add the event handler "Click" on the check box itself and then in the event handler set the ListView.ExpandCore to true or false based on the checked or unchecked status of the check box. (in other words it can be like this: private void CheckBox_Checked(object sender, EventArgs e) { if (!myListView.ExpandCore) myListView.ExpandCore = true; } Is there a better way? A: Add a handler to your ListView and handle the ListView.ItemsAdded event. That way you can always know when a new item is added, at which point you can expand or collapse it. Just be sure to handle the case when your collection changes on the

server and an item is added/removed. Erratum {#Sec1}

What's new in Adventures Of Chris Soundtrack:

**Listing Star Wars Krayt - Short Stories (not yet available)
Plot Synopsis: Finn's journey across the galaxy in first volume of the Star Wars Adventures series. On his journey he encounters a legion of Imperial Stormtroopers, nasty creatures called the Praetorian Guard, are shot by the AK-11's of Luke Skywalker's ragtag band of Rebels, and an armada of evil space pirate. Your thoughts about Finn, Zeb, and Raymus in the latest issue of Star Wars Adventures can be found [HERE](#). — Rod McCain Synopsis: Much is going on with this volume of the Star Wars Adventures comic series. Finn is mentored by Ciena, who tells him how to pilot a VT-Tertius Phantom dropship and how to disguise himself as an Imperial Trooper. In his quest to leave Hoth, he ends up on the planet of Count Dooku (and is convinced he's Darth's apprentice). He goes into a dungeon, fights enemies, and rescues C-3PO and R2-D2. When he returns to freedom, he wakes up back on Endor and gets into a surprisingly interesting situation. Luke is here, armed with a lightsaber, and Luke starts talking about their past adventures together (apparently as a friend of Obi-Wan's, though we don't know how much is actually true). Sam helps Fredo escape some rebels, and a chase ensues that shows Finn's unique blend of athleticism and smarts. Meanwhile, as things go into the Han Solo / Luke Skywalker saga territory, Krayt launches a plan to go after Luke and take over the Empire. Showing incredible dedication to the character, the series does its best to rationalize why X-Wing was defeated, with Separatists, Imperial forces, and the Rebellion getting their spies on the board. This has the most colorful descriptions of battles, common sense, and humor of any Star Wars comic series we have seen. This is worth the price of admission alone. Even though it is not the main story, people who enjoy these sorts of adventures will enjoy this volume of the series that continues where Sandman III left off. For this issue we managed to find time to share some creative feedback our fans gave us**

regarding Star Wars Adventures: Padawan Reaper: That's really what it is, I think. An advent
